

## SUMMARY

S. Elhaddad, H. Aldweby, M. Darus – <i>Neighborhoods of Certain Classes of Analytic Functions Defined by a Generalized Differential Operator Involving Mittag-Leffler function</i> .....	1
F.M. Sakar, S.M. Aydoğan – <i>Coefficient bounds for certain subclasses of M-fold symmetric bi-univalent functions defined by convolution</i> .....	11
W.A. Khan, M. Ghayasuddin, B.M. Singh – <i>Euler type integral operator involving generalized Mittag-Leffler function</i> .....	23
V. Popa, A.-M. Patriciu – <i>Other fixed point theorems for two pairs of absorbing mappings satisfying an implicit relation in partial metric spaces</i> .....	35
S.M. Atshan, A.A. Hamoud – <i>Approximate solutions of fourth-order fractional integro-differential equations</i> .....	49
S. Heidarkhani, A.L.A. De Araujo, G.A. Afrouzi, S. Pourali Roudbari – <i>Existence results to elliptic problems with Dirichlet boundary condition involving a p-harmonic operator</i> .....	61
R. Abo-Zeid – <i>On a third order difference equation</i> .....	89
D.L. Suthar, S.D. Purohit, K.S. Nisar – <i>Certain integrals associated with generalized hypergeometric functions</i> .....	105
A.O. Mostafa, G. M. El-Hawsh – <i>Subordination Results for Classes of Multivalent Non-Bazilevic Analytic Functions Defined by Linear Operator</i> .....	113
D. Breaz, N. Breaz, S. Owa – <i>Some properties for certain analytic functions</i>	127
